

RapidMatter Mentoring

Change the way people connect and grow

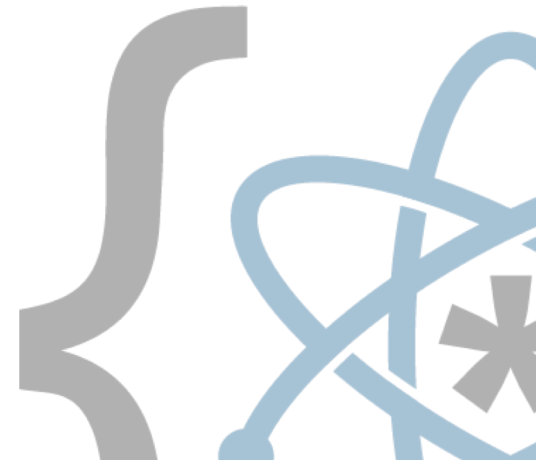

IT Professionals are looking for
more and better mentoring than
they're getting today.

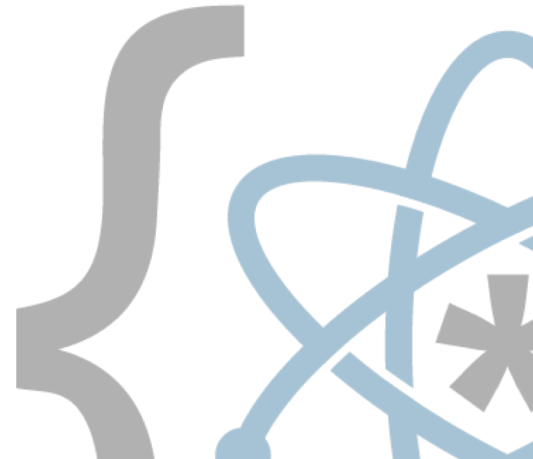

More than 75% of professional
men and women want to have a
mentor, only 37% have one

Rather than mentoring for a skill,
we need to balance interests,
values and skillsets

We need a system that will find a
mentor who is an ideal match and
propel you to success

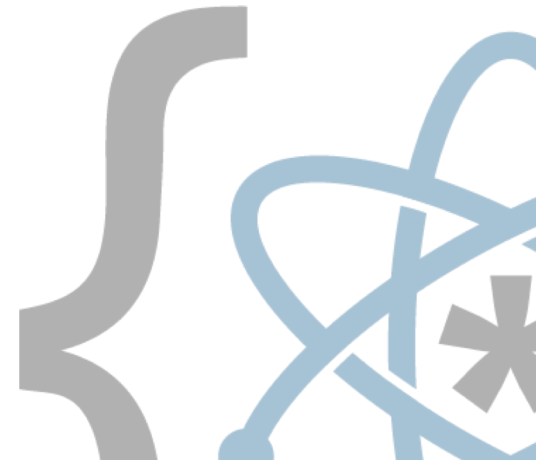

RapidMatter Mentoring is an AI
powered platform that will match you
with a mentor based on a holistic
approach for greater impact

Our algorithms will select mentors
who match your values, interests and
skillset and who is the most
compatible with you

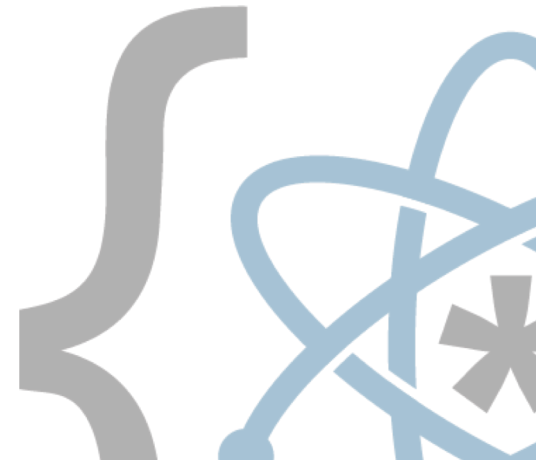

Placeholder for app screenshot

1. Complete your profile
2. Click 'find mentor'
3. Connect with personalized mentor

Then the magic happens!
